
Full-stack MERN developer with experience in optimizing performance, enhancing UI/UX, and improving component reusability

EDUCATION

Master of Science (Integrated), Computer Science, Pondicherry University, GPA: 6.96/10.00

Jun 2019 — May 2024

PROJECTS

Image Steganography | Python

Built an encryption-based tool to securely embed and extract hidden data within images, ensuring confidentiality for sensitive files.

Track Ease | Flutter + MongoDB

Led design of a cross-platform file tracking system; integrated QR codes to simplify retrieval and storage, improving efficiency by 40%.

Tic-Tac-Toe | Java (GUI) –

Developed a 2-player interactive game using OOP principles and GUI frameworks, demonstrating strong grasp of event-driven programming.

Library Management System | Python + SQL

Created a system for book cataloging, lending, and user management with a 50% reduction in manual errors.

EXPERIENCE

Associate Software Engineer

Oct 2024—Present
Mumbai

HawkLabs

- Developed and maintained full-stack MERN applications, integrating front-end and back-end services.
- Designed and customized interactive UI components using React within Framer to enhance user experience.
- Optimized code, workflows, and component reusability to improve application performance and maintainability.
- Collaborated in Agile sprints, participated in code reviews, and contributed to timely delivery of business-critical features.

SKILLS

- Languages: Java, Python, C, C++, JavaScript
- Frameworks: Spring Boot, React, Node.js, Flutter
- Databases: MySQL, MongoDB
- Cloud/DevOps: AWS, Git, CI/CD, IntelliJ, VS Code
- Data & Analytics: NumPy, Pandas, Matplotlib, Big Data, NLP
- Core: OOP, Algorithms, Data Structures

WORKSHOPS

1. ·Blockchain (NIT Karaikal, 2023)
2. ·IoT Systems (PU, 2023)
3. ·Mobile App Dev (PU, 2022)

LANGUAGES

- English (Proficient)
- Tamil (Native)
